PROJECTS

Portfolio Website

Jul 2023 – Jul 2023

- Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase skills, projects, and achievements. [LIVE LINK](#) [GITHUB](#)
- This online platform effectively highlights my capabilities and provides a tangible representation of my abilities in web development.
- Implemented a responsive design approach, guaranteeing a user-friendly experience on a wide range of devices and screen sizes.
- This ensures a smooth and engaging user experience without redundancy or complexity.

HireSphere Hub

Nov 2023 - present

- Currently, I'm immersed in the development phase of an innovative platform aimed at facilitating seamless interactions between job seekers and recruiters. [GITHUB](#)
- This ambitious project involves the integration of diverse functionalities using Nodemailer for efficient email communication, Sessions for secure user management, Multer to handle file uploads, and a range of other Express modules to ensure a comprehensive and efficient system.
- I aim to harness my expertise in full-stack web development while creating a dynamic platform that revolutionizes the job search experience for both candidates and employers alike.
